End: 10/9/2018 5:00:00 PM
Show Time As: Tentative

Required Attendees: Michals, Stan; Newton, Lynne

Hi Stan,
We will give you a call at 10:00 on Tuesday, Oct 9.

Here is the UIC regulation that calls for the cumulative effects analysis:
40 CFR §144.33 Area permits.

(c) The area permit may authorize the permittee to construct and operate, convert, or plug and abandon wells within the permit area provided:

3) The cumulative effects of drilling and operation of additional injection wells are considered by the Director during evaluation of the area permit application and are acceptable to the Director.

And area permits are permits that authorize more than one injection well within the permit area.
Thanks!
